New York, NY 10017

copy to:

M.E. Sheehan; Secy, BPE  
BPTCS Officers

Based on the presentation prepared by the Ad Hoc Bioprocessing Equipment Committee and presented by its Chairman, David Smith, the Board on Pressure Technology Codes and Standards (BPTCS), at its 6/4/90 meeting, took action to:

- (1) to recommend to CCS the formation of the Bioprocessing Equipment Main Committee (BPE) with a scope to read: "Design, materials, construction, inspection, and testing of vessels, piping, and related accessories such as pumps, valves, and fittings for use in the biopharmaceutical industry";
- (2) to approve the current Ad Hoc BPE Committee Officers and Members as Officers for a three year term ending June 30, 1993 and Members for a five year term ending June 30, 1995 on the new BPE Main Committee when approved by CCS;

At its 6/5/90 meeting, the Council on Codes and Standards (CCS) approved the recommendation of the BPTCS.

Therefore this letter is to advise that your membership is reaffirmed on the newly approved BPE Main Committee with an extension of term until June 30, 1995. Your previous acceptance to the Ad Hoc Committee is being considered as your acceptance to the new BPE Main Committee for the extend term unless we hear from you to the contrary.

Again, we are very pleased that you can take on this assignment and I express ASME's appreciation for your efforts in this regard.

Arlene A. Spadafino; Secy, BPTCS  
Director, PTCS Dept; M/S 8E
