

## **Announcement**

Date: November 12, 2009

From: Roger West

### **Re: United Industries Appoints New President**

It is with pleasure that we announce the appointment of **Greg Sturicz** as the President of United Industries, Inc., which was effective as of November 9, 2009. Greg's extensive experience and his understanding of the industry make him an excellent choice to lead United Industries as we continue to expand our business. In his new role, Greg will be responsible for all operating aspects of the business.

Greg joined United in 2005 as the Vice President of Sales & Marketing. For the past four years, he has been actively pursuing new business through various channels in diverse markets. Greg has been instrumental in establishing a strong market position within the processing industries; and, he has also instituted changes to how we manage and measure our sales team, and brings an enthusiastic approach to dynamic improvement. A great team in both Beloit and Selmer that is committed to customer satisfaction supports him.

Greg has more than 25 years of industry experience, having held Director and VP positions with Invensys APV and Alfa Laval Tri-Clover.

Please join me in congratulating Greg in his new position.
